Press Release

Eschborn - 23.06.2020

okadis FSDP Data Loader (oDL) Now Live on SAP® App Center

By integrating with SAP Financial Services Data Management, the solution from okadis Consulting delivers full integration of SAP ERP and SAP S/4HANA® to customers

okadis Consulting GmbH today announced that its FSDP Data Loader (oDL) is now available for purchase on SAP® App Center, the digital marketplace for SAP partner offerings. FSDP Data Loader integrates with SAP Financial Services Data Management and delivers a full integration to financial services industries (CML, TRM, BCA, BP, FI and others) running SAP ERP or SAP S/4HANA® to customers.

After three years of development with partners SAP and BearingPoint, okadis now delivers a fully integrated solution for data governance, financial and regulatory reporting by integrating SAP ERP and SAP S/4HANA into SAP Financial Service Data software.

The okadis vision is that a clean and well documented transformation, free of business logic, is the key for a stringent and successful data lineage. Therefore this was one of the major principles during the design and development of its solution. The standardized data model of financial services is transformed into the new SAP Financial Services Data Management landscape by using simple structural transformations. This is done near-time and persistence-free through two subsequent data layers (CDS views). The data is pushed via delta-mechanism into SAP Financial Services Data Management using SAP HANA flowgraph technology. Visit https://www.okadis.de/okadis-fsdp-data-loader or contact okadis for implementation details at info@okadis.de.

At SAP App Center, businesses can discover approximately 1,500 innovative partner solutions that integrate with and extend SAP solutions. There, customers can find the SAP-validated partner apps they need to grow their business. Find, try, and buy SAP partner solutions digitally at www.sapappcenter.com.

okadis Consulting GmbH is a partner in the SAP PartnerEdge® program. As such, it is empowered to build, market and sell software applications on top of market-leading technology platforms from SAP. The SAP PartnerEdge program provides the enablement tools, benefits and support to facilitate building high-quality, disruptive applications focused on specific business needs – quickly and cost-effectively. The program provides access to all relevant SAP technologies in one simple framework under a single, global contract.

About okadis Consulting GmbH

okadis Consulting GmbH is a consulting and software company based in Frankfurt am Main. With our main business focus on the financial industry including customers like banks, banking service providers as well as investment and insurance companies we offer competent consulting and develop innovative solutions. Responsibility, problem sensitivity, persistence, and creativity as well as friendliness and personal trust are the key paradigms for the collaborative partnership between our customers and our employees.

With the combination of solid business know-how and deep technical skills we deliver the holistic view which is essential for implementing successful projects and develop long-lasting, stable software products. okadis offers tailor-made solutions for its customers without losing the focus for standardization and scalability.
